Beveller Sliding Plate	VARGA-VBSP	£34.50

## Varga 1 Saw

### TRAPEZOIDAL-GROUND TEETH

The first or trapezoidal tooth of the pair cuts deeper than the second or flat top tooth, which, in its turn, makes a wider cut than the first. This means that the sawdust is divided up into three portions. This EA type of saw is particularly suitable for hard plastics and provides a very smooth cut surface

### Carbide Tipped Saw Blades Please state Bore size when ordering

<i>Diameter</i>	<i>Teeth</i>	<i>Code</i>	<i>Price</i>
6"	48	CSB6	£80.00
