Varga 1 Saw

TRAPEZOIDAL-GROUND TEETH

The first or trapezoidal tooth of the pair cuts deeper than the second or flat top tooth, which, in its turn, makes a wider cut than the first. This means that the sawdust is divided up into three portions. This EA type of saw is particularly suitable for hard plastics and provides a very smooth cut surface

<i>Item</i>	<i>Diameter</i>	<i>No. of Teeth</i>	<i>Code</i>	<i>Price</i>	<i>Regrind</i>
Saw Blades	6"	44	CSB6	£80.00	£13.00
