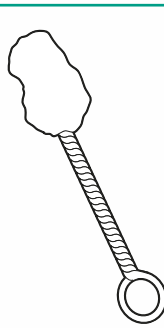
Fillers Cutting Oil and Laser Metal Marking

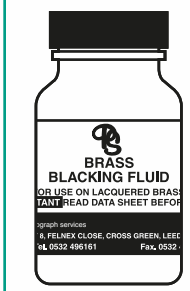
Aluminium Blacking Fluid

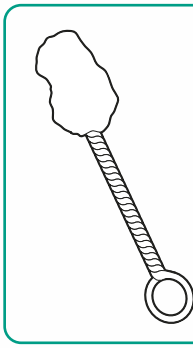


For use on Anodised Aluminium only. Engraving through the anodised surface exposes the Natural Aluminium. Simply apply the liquid which reacts with the Natural Aluminium to produce a Matt Black finish, Wash off the excess Blacking Fluid with water. The reaction time will differ depending on the size of the engraved character and for really small characters will be just a few seconds. Supplied with Felt Swab Applicator. This product is not recommended for larger letters as the greater surface area reduces the black effect.

Length	*Code*	*Price*
Aluminium	ABL	£17.41
Felt Swab	BFS	£0.96

Brass Blacking Fluid





For use on Lacquered Brass only. Engraving through the Lacquered Brass exposes the Raw Brass. Simply apply the liquid which reacts with the Raw Brass to produce a Matt Black finish, Wash off the excess Blacking Fluid with water. The reaction time will differ depending on the size of the engraved character and for really small characters will be just a few seconds. Supplied with Felt Swab Applicator. This product is not recommended for larger letters as the greater surface area reduces the black effect.

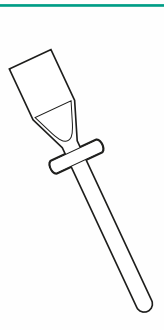
Aluminium	BBL	£17.41
Felt Swab	BFS	£0.93

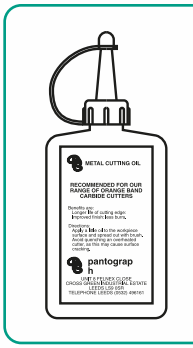
Filling Paint



A high gloss, fast drying cellulose paint ideally suited for most paint filling applications. Supplied with Paint Application Spatula.

Length	*Code*	*Price*
Black	P1	£7.85
White	P2	£7.85
Red	P3	£7.85
Blue	P4	£7.85
Yellow	P5	£7.85
Green	P6	£7.85
Orange	P7	£7.85
Spatula	PA	£5.85
		Pack of 10

Cutting Oil



CUTTING OIL a high pressure cutting lubricant which prolongs cutter life, improves finish and greatly reduces burrs. We strongly recommend this for use with our orange band cutters on stainless steels, tool steels, anodised aluminium, brass and other metals.

Fillers Cutting Oil and Laser Metal Marking

Laser Metal Marking

Cermark

Solvent-based for easy handling before marking. This range contains a hardener that allows the products to be easily handled prior to marking with your laser. The final result in a permanent black mark.

Product	*Code*		*Price*
Cermark LMM 6000 Aerosol	340g (12oz)	68880	£95.17
Cermark LMM 6000 Paste	350g	69974	£267.75

Thermark

Water-based for fast clean up. A thin coat of meterial can be sprayed onto the metal, then left to dry for less than 2 minutes and laser marked. The excess water-based Thermark can be easily washed off to reveal the final black mark.

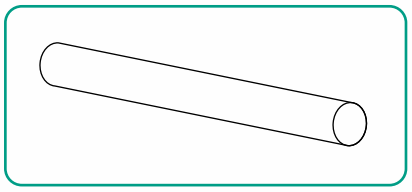
Product	*Code*		*Price*
Thermark LMM 14 Aerosol	170g (6oz)	67120	£63.80
Thermark LMM 6018LF1 Tape	1" x 50'	71866	£126.00
Thermark LMM 6018LF2 Tape	2" x 50'	67121	£210.90

CAUTION

These colouring products require specialist security measures. Use them in well ventilated rooms only and wear suitable protective clothing and gloves.

Data Sheets are available to download on our website.

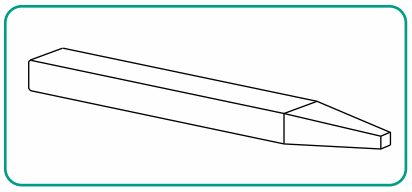
Soft Wax



Colour impregnated wax sticks. Requiring no heat. The stick is rubbed over the engraving and the surplus is wiped off with a soft cloth

Length	*Code*	*Price*
Black	SW1	£2.32
White	SW2	£2.32
Red	SW3	£2.32
Blue	SW4	£2.32
Yellow	SW5	£2.32
Green	SW6	£2.32
Brown	SW7	£2.32
Gold	SW8	£2.89
Silver	SW9	£2.89

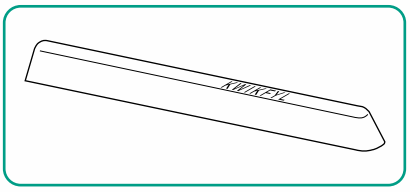
Hard Wax



Requires heat to melt into the engraving and is therefore only suitable for metallic plates

Length	*Code*	*Price*
Black	HW1	£2.66
White	HW2	£2.66
Red	HW3	£2.66

Kwikfyl



A hard adhesive filler especially suited for light engraving on metals. It is applied warm and sets at once*.

Length	*Code*	*Price*
Gold	KW7	£23.15
Silver	KW8	£23.15
		Sold in packs of six
