ENGRAVING MACHINE
GravoTech M20

IDEAL FOR :
- WATCHES, BRACELETS, GIFT ITEMS.
- ID-BADGES, SMALL SIGNS.
- INDUSTRIAL TAGS.
- IDENTIFICATION AND LEGEND.

■ An affordable, self contained, marking system that's convenient, easy-to operate and can replace your manual machine or the need to outsource your marking tasks.

■ Complete system includes engraving machine and software, tools, accessories and tutorial.

■ Choose from two user-friendly software programs, delivered standard, that will enhance your creativity:
  - the KwikClick™ PC based engraving software - Easy yet professional.
  - the KwikPocket™ user friendly software, PDA based - no PC required to operate the machine.

■ Easy clamping of plates and other objects with self-centering vice.

■ Integrated vice and pen attachment provides quick change-over and increases productivity.

■ Depth nose allows for constant engraving, particularly on uneven surfaces.

■ Error-free engraving lets you simulate your job before you engrave using the integrated red laser pointer - no measuring required.

■ Effortless Cutter Setup - Integrated Automatic Z reference function included standard.

■ Overall machine size
- 310 X 340 X 310 mm

■ Weight
- machine : 10 kg

■ Engraving area
- 100 x 100 mm

■ Z stroke
- 30 mm
- Clearance (nose to bottom of vice) : 40 mm

■ Spindle
- Diameter 3,17 mm hollow shaft (GravoGraph patented innovation)
- Brushless motor 20000 rpm
- Spindle pressure adjustment

■ Point 'n shoot function
- Engraving area automatically defined by red laser beam pointer

■ Self centering vice
- Max opening capacity : 105 mm

■ Flatness : 0,1 mm

■ Repeatibility : 0,05 mm

■ Pen attachment
- Maximum diameter : 20 mm

■ Noise level
- Standby : LAeq = 51dB(A) (±1)
- Engraving : LAeq = 69dB(A) (±2)
- Peak in engraving : LpCpeak = 89dB(C)
